<b>Office Action Summary</b>	<b>Application No.</b> 10/784,747	<b>Applicant(s)</b> FULLERTON ET AL.	
	<b>Examiner</b> Young T. Tse	<b>Art Unit</b> 2611	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see pages 5-7, filed November 22, 2010, with respect to the rejection under 35 U.S.C. 112, first paragraph have been fully considered and are persuasive. The rejection of claims 23-25, 27-34 and 36-42 has been withdrawn.
2. Applicant's arguments, see pages 7-11, filed November 22, 2010, with respect to the rejection under 35 U.S.C. 103(a) have been fully considered and are persuasive. The rejection of claims 23-25, 27-34 and 36-42 has been withdrawn. However, regarding to argument that Fullerton not teach or suggest generating a mono-cycle pulse as recited in each of the independent claims 23, 31 and 40. If this holds true as Applicant argued, the amendments filed on March 10, 2008 to the specification in paragraph [0121] to include "semiconductor switch 1027", labeled in Figure 10 of the disclosure within the output stage 1028, and amended in claims 28-29 and 37-38 raise the issue of new matter as rejected in one of the previous Office Actions.

### ***Claim Objections***

3. Claim 39 is objected to because of the following informalities: claim 39, line 1, the word "a" should be removed. Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 28-29 and 37-38 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 28-29 and 37-38 raise the issue of new matter because the claimed subject matter of the claims was not described in the original specification, disclosed in the original disclosure of the drawings and recited in the original claims as amended in the amendments to the specification and the disclosure of Figure 10 filed on May 10, 2008 in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

***Allowable Subject Matter***

6. Claims 23, 25, 27, 30-31, 33-34, 36 and 40-42 are allowed.
7. Claim 39 would be allowable if rewritten or amended to overcome the objection set forth in this Office action.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Dutcher relates to a read chain circuit including a time domain filter for filtering zero crossings of differential signals from a differentiator to generate a bit detection signal to an offset circuit to control offset signals of the differentiator.
9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
